JCS DECLASSIFY/RELEASE INSTRUCTIONS ON FILE

SUBJECT: BORDER SURVEILLANCE UNITS

1. BACKGROUND

The Border Surveillance Program was originally started in I and II Corps areas in August 1962. The CIDG Program evolved from the original Border Surveillance Program when emphasis and publicity was given to the CIDG Program. The original camps were Dak To in Kontum Province and Khe Sanh in Quang Tri Province. Each of these camps started initially with two hundred and fifty (250) locally recruited Montagnards. The present Border Surveillance Program returned to its original mission when the CIDG mission was completed in these camps and other camps that were established along the border. The objective is to have continual and constant patrolling on the South Vietnamese side of the Laos Border to discover and intercept Viet Cong personnel and equipment crossing the border into South Vietnam.
